

ECCP Updates

The Early Childhood Consultation Partnership (ECCP) is continuing to support ECE Centers and Family Based Child Care Providers with Teleconsultation Services. ECCP is providing all services virtually, and continues to evaluate when a return to Standard ECCP services will be possible.

See what people who have recently worked with ECCP are saying:

“The services ECCP provides are extremely beneficial to all aspects for the program. The center based service provided supports to me as the director but also to the teachers and ultimately the children. I am very grateful to have had the opportunity to work with (our consultant).”

Center Wide Service, Center Director

“ECCP offers viable solutions that can be realistically put into everyday use. They encourage working relationships between staff and parents”

Child Level Service, Center Director

“The ECCP services we have received have been a tremendous help in the classroom”

Child Level Service, Teacher

“The services provided are very helpful for parents who struggle getting a better grip on their child’s behavior. (The consultant) was great and provided my family with successful tips that have made a difference in a short amount of time we have worked with her. We are grateful and happy with the results.”

Child Level Service, Parent

We are accepting referrals at this time!

ECCP Teleconsultation Services include:

Phone Intervention: ECCP can support any caregiver of children with two telephone consultation sessions. This is a confidential service. Resources and referrals will be provided as needed.

Teleconsultation Child Intervention: A brief virtual version of our Standard ECCP Child Specific Service is available for any child who is attending (either in person or virtually) an ECE Center or Family Based Child Care Provider. Typical referrals to ECCP often include, but are not limited to: challenging behaviors, difficulties with transitions and/or following directions, family stressors, and difficulties in the ECE Center/Family Child Care setting.

Teleconsultation Center Wide Intervention: This service is provided to ECE Centers who are open with children attending either in person or virtually. ECE directors and other administrative staff will receive support around the current dynamics of working under the COVID-19 structures. Various topics may include: Social Emotional Support, Classroom Structure (i.e., Set up & Management), Building Relationships with Families, Stress Management/Self Care.

As always, ECCP Consultants will continue to provide Triage and Referral for any callers that are in need of a variety of Social Emotional resources, including sharing helpful resources/strategies, offering virtual social emotional community trainings, facilitating virtual mental health consultation groups, or providing referrals to other mental health programs.

Visit our website at www.eccpct.com for more information and to find the ECCP Consultant in your area.

**We are open for referrals in all programs across the state.
We look forward to connecting with you.**
